

CHECKING ID'S

just got a whole lot

EASIER!

Age verification is one of the biggest concerns for all licensees. With the help of ID scanning technology, it is becoming easier to integrate a successful and efficient ID checking routine into your daily business. With a simple swipe of almost any piece of official identification, an Electronic Age Verification device can promptly tell you or your staff if you're dealing with a minor. Alterations, modifications and counterfeit ID pieces can be immediately identified, protecting your business from violations and stopping minors from making illegal purchases.

The following is a list of Michigan-based distributors of various ID scanning technologies.

Prices starting at \$250.00

DenMark Distributing (734) 323-1230
D.J. King & Associated (800) 781-5316

The Michigan Liquor Control Commission and the Michigan Licensed Beverage Association do not endorse any one product or company over another. It is up to each individual licensee to determine which company, product line and model best fit their specific needs.
